

HRSA GRAPHS ON NURSING SHORTAGE

Exhibit 2. National Baseline Projections of Annual Nursing School Graduates

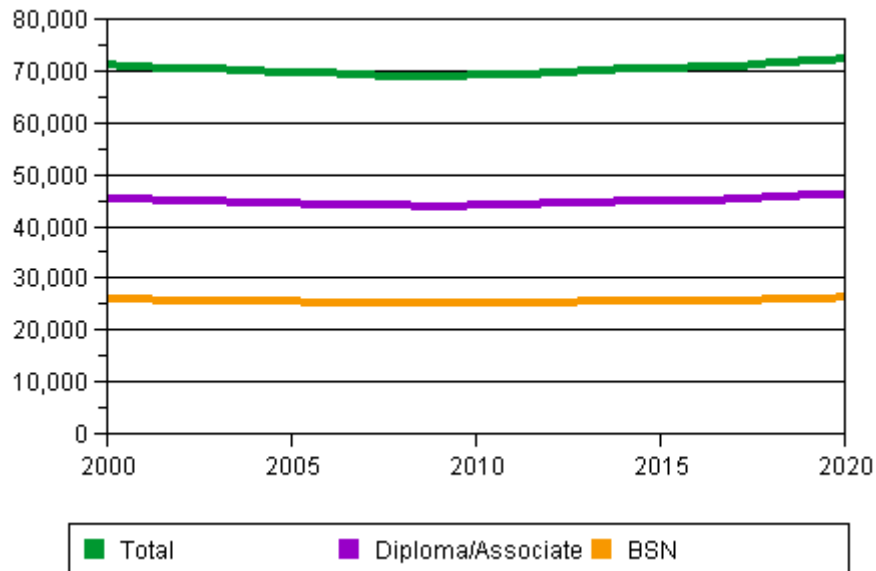

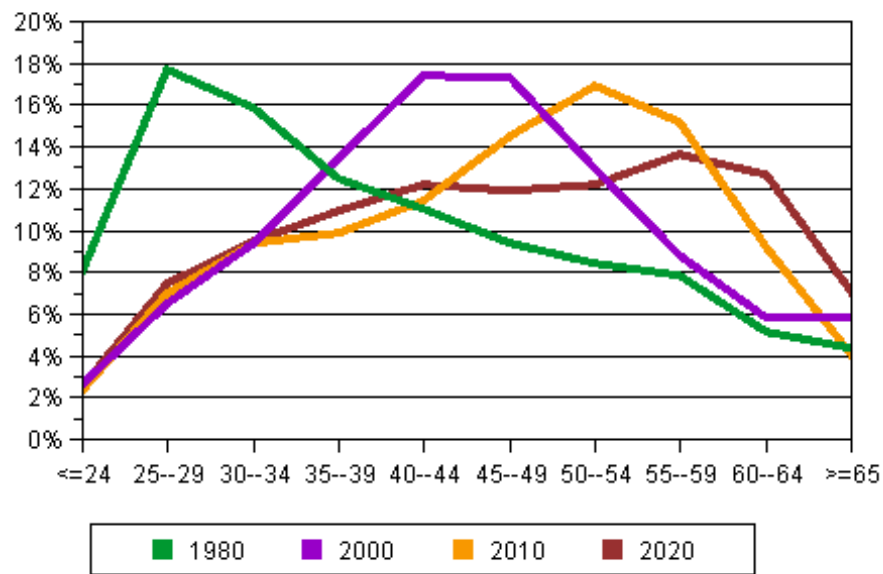

Exhibit 4. Age Distribution Trend of the RN

Population

Exhibit 11. FTE Supply Implications of Changes in Projected Number of New Graduates from U.S. Nursing Programs ³

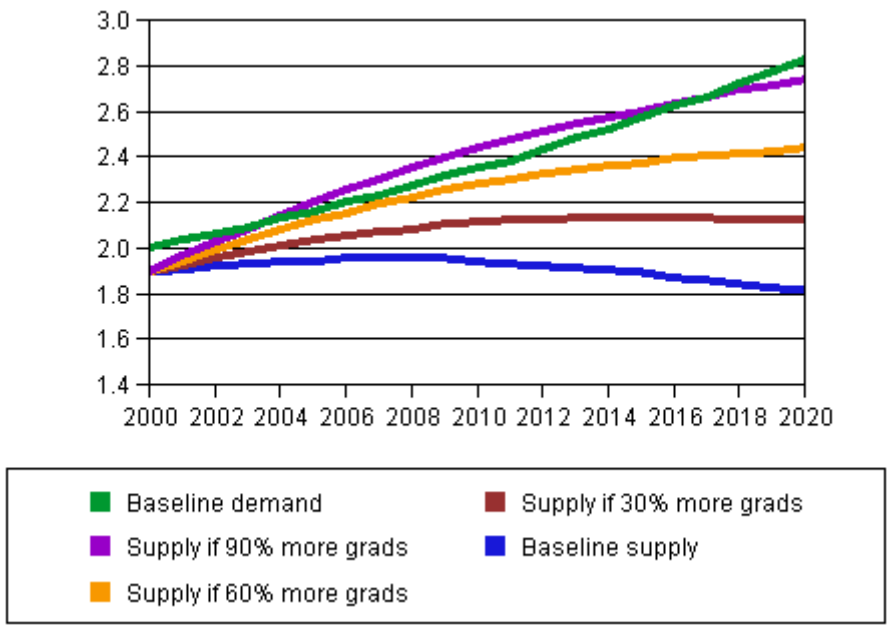

Exhibit 14. Impact of Changing Retirement Patterns on FTE RN Supply

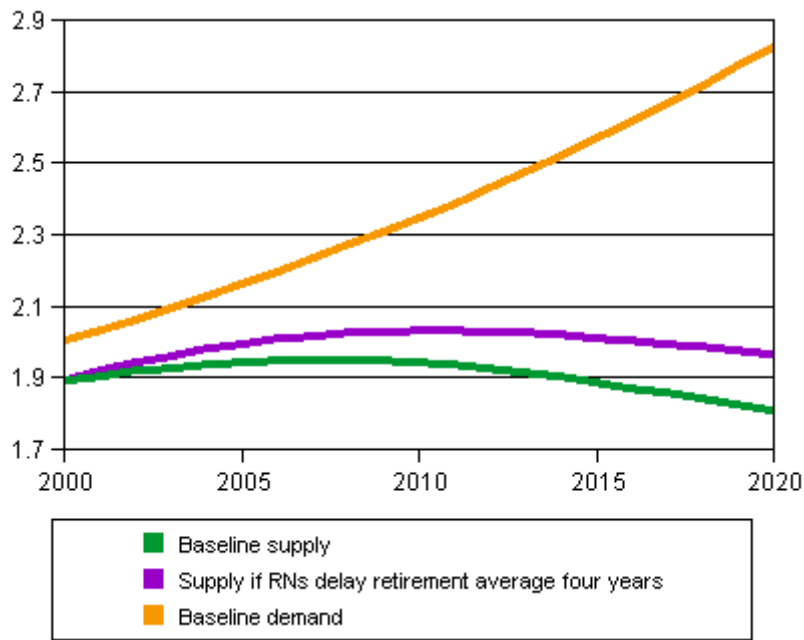

Exhibit 15. Population Growth, 2000 to 2020

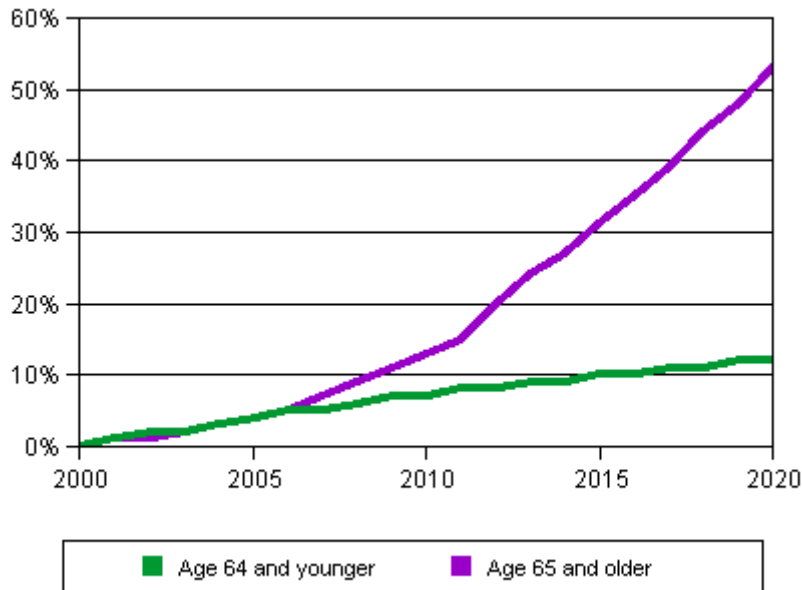

Exhibit 22. Projected Demand for FTE RNs under Alternative Scenarios

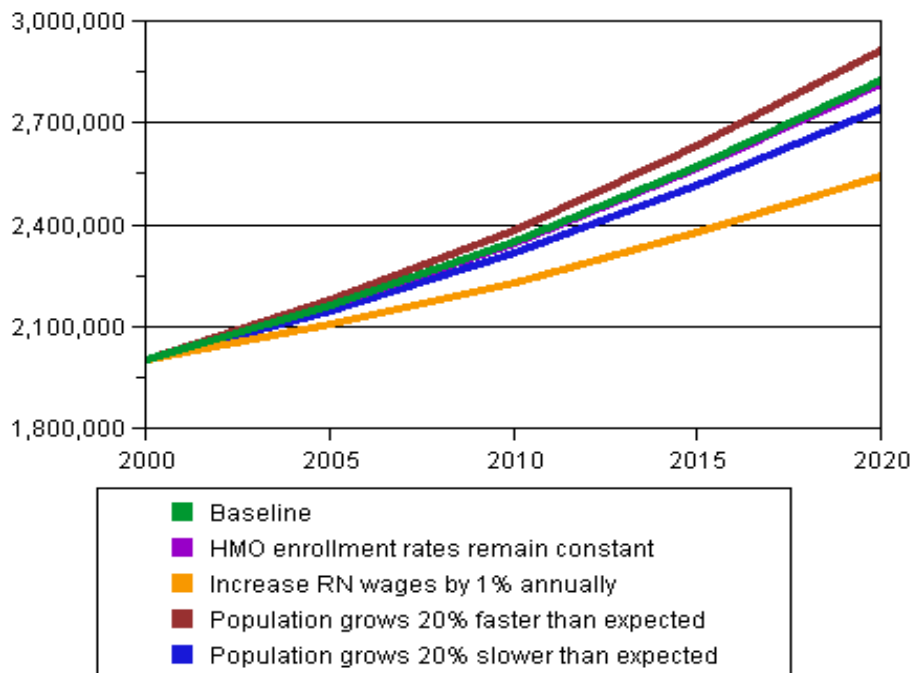

Exhibit 24. Projected U.S. FTE RN Supply, Demand, and Shortages

	2000	2005	2010	2015	2020
Supply	1,890,700	1,942,500	1,941,200	1,886,100	1,808,000
Demand	2,001,500	2,161,300	2,347,000	2,569,800	2,824,900
Shortage	(110,800)	(218,800)	(405,800)	(683,700)	(1,016,900)
Supply ÷ Demand	94%	90%	83%	73%	64%
Demand Shortfall	6%	10%	17%	27%	36%
